David Taylor

Austin, TX 78723   512.514.3706   david@codewizard.app

Portfolio   Github

Ambitious and flexible problem solver with 5 years experience in solving problems and building solutions. Seeking a developer role to apply my attention to detail and to collaborate with the goal of creating innovative and reliable solutions to technical problems. Currently at University of Texas Coding Bootcamp to improve, solidify, and polish my skills as a developer.

Skills

Server side programming: NodeJS, MySQL, Sequelize, MongoDB, Mongoose, GraphQL, ApolloQL

Client side programming: Dynamic, responsive UI execution with JavaScript, jQuery, HTML, CSS, SASS

Frameworks and packages: React.js, Angular.js, Laravel, Express, TypeScript

Project management tools: Git, NPM, Composer, Babel, Webpack, RollUp, Storybook

General programming: data structures, algorithms, CI/CD pipelines, experimenting with new packages

Essential skills: Communication, collaboration, problem solving, active listening, leadership, flexibility

Experience

Body Wizard Medicine   Austin, TX

WEBMASTER   AUGUST 2017 - DECEMBER 2021

- Built and maintained a landing page for general business purposes
- Work independently to design and develop web software for a medical portal, used for appointment scheduling, email and text reminders, billing, electronic health record management, inventory, and prescription management
- Integrated above software with over 5 external APIs for Twilio, SendGrid, and Stripe, as well as various medical APIs

OWNER / ACUPUNCTURIST   JULY 2013 - DECEMBER 2021

- Opened LLC for the practice of Traditional Chinese Medicine
- Maintained marketing presence through use of Facebook, Instagram, and Google Ads
- Identified and diagnosed complex disease patterns for over a 1000 patients with a wide range of medical issues
- Known for wonderful bedside manner with delicate situations and excellent clinical results

Education

Full Stack Coding Bootcamp / University of Texas Austin   JUNE 2022 - PRESENT

Comprehensive courses including collaborative teamwork and best practices in addition to standard coding skills
